## Introducing English+

Learning English doesn't have to be a long and difficult process. Through our years of experience we have designed a program that can help you learn English faster.

We can do this because we design lessons which are flexible and that develop with you as you learn. The classes are prepared specifically for the students in the class at any given moment. No two lessons are ever the same.

However, students absorb language differently so beyond the classroom, English+ takes over. It is a personal guided study plan which will target your individual academic needs and is adapted to your specific learning style.

Your unique study plan is designed by the Academic Director and is used to help you improve in specific areas. English+ will also ensure that you continue progressing while you are at English One, and even after you have gone home. This program becomes an essential part of the learning process. By taking control of your learning, you will always know exactly where you are and what areas you need to focus on to meet with success.

PLEASE NOTE: English+ is free for students who study for 6 weeks or longer.
